

VSP® Vision Care cares, and we want to do everything we can to help those affected by the River Fire in Nevada and Placer County. We're working directly with our network doctors, business partners, and relief agencies, including the American Red Cross, to assess the situation and fulfill the eye care needs of those directly affected. If you have been affected by the recent disaster, no-cost eye care and replacement eyewear are available, whether or not you're currently a VSP member.

Here's what we're doing to help and what you can share:

Any VSP member who has lost or broken their eyewear due to the wildfires can call our Member Services Support Line at 800.877.7195 to have their VSP benefits reinstated regardless of eligibility.

Individuals without VSP coverage can contact their local American Red Cross chapter and request a VSP Global Eyes of Hope gift certificate.
